

Recap - What

- Mobile App (iOS / Android)
- New web based CRM & API (Database, Reports, Payments etc)

Where are we

- ✓ Website + App + Admin up and working
- ✓ Clubs Permitting Online
 - ~500 permits issued since launch
 - ~20,000 automated emails sent
- ✓ Official Reports Online
 - ~350 completed online
- ✓ Official Assessments Online
 - ~100 completed online
- ✓ Licencing for 2019
 - Ready to go

New Features

Some of work this year..

- Integrated financial membership
- Rider helmet tracking
- Club news, push notifications to riders
- Licencing (2019 season)

Financial Database

- Financial members can be imported by clubs.
- Status appears as part of scanning the riders QR code.
- Instructions and help are available on the portal.

Helmet Database

- Helmets entered by the rider, or at sign on.
- Officials can blacklist a helmet via the app.
- Helmets blacklisted show a warning when scanning in.

Motorcycling NZ Mobile App + CRM

AGM Wellington, NZ, May 2019

MNZ APP AGM WORKSHOP

	Discussion Points
1	Add the age of the helmet into the riders database and/or year of manufacture
2	Purchase of Free OEL online
3	If an OEL is not used by a rider can it be saved for another event instead of being refunded
4	Will to test a range of phones and their capabilities for the App
5	MNZ to send out template on how to the CSV file looks for clubs to add their financial members to the App
6	When a club looks at the log of scanned in riders, they are out of alphabetical order
7	Restricted Riders list not in complete alphabetical order
8	Add a search button to the Restricted Riders List
9	Once an event has a log/number of riders scanned into the event can this auto fill to the Stewards report
10	An email reminder/push notification to a rider 31 days before their licence is due to expire
11	Produce a Scan Issue document – what to do
