### **CONTROL TYRE UPDATE**

We will not be running a control tyre in any classes at the NZSBK Championship in 2021 until a full review has been undertaken including members feedback after the 2020 NZSBK Championship. MNZ apologies for any inconvenience that this has caused with riders or teams.

### **RIDERS FORUM**

The NZSBK Management team have set up a riders forum where we welcome feedback and input into advancing our NZSBK Championship. We would like to have representation for all classes and are currently seeking representatives from each class to form part of this group. If you can please send your interest through to [events@mnz.co.nz](mailto:events@mnz.co.nz)

### **ENTRIES**

We aim to have entry forms out in early October (including a proposed race schedule) and this includes Pit Garage space allocation, which this season will have a better plan & group type structure.

Kind regards

Grant Ramage  
Road Racing Commissioner
